Personal

MSc IT Management student at BSBI with 1.5+ years of experience in IT Infrastructure Management at TCS. Proficient in Linux, Windows Server, VMware, and Nutanix environments with hands-on experience managing enterprise data center infrastructure. Passionate about cloud, virtualization, and scalable IT solutions.

Professional Experience

01/2023 – 01/2025
Chennai

Tata Consultancy Services, Programmer

- **Infrastructure Management:** Acted as a senior resource managing multiple data center infrastructures across On-Premise and Cloud environments.
- **Team Leadership:** Led and managed two distinct teams of 8 members for over a year, coordinating different operational roles.
- **Linux Administration:** Primary administrator for a fleet of over 1,000 servers across multiple global regions.
- **Hypervisor Expertise:** Managed diverse environments including VMware vCenter, Nutanix, Windows Hypervisor, and Azure.
- **VMware Optimization:** Planned and implemented vSphere/ESXi clusters specifically for critical business workloads.
- **OS Migration:** Executed a large-scale migration of 70% of server infrastructure from Red Hat Enterprise Linux 7 to versions 8 and 9 using Leapp software.
- **Nutanix Deployment:** Deployed Nutanix AOS from scratch, including initial rack and stack, clustering, and conducting POC tests for 55+ hypervisors.
- **Efficiency Solutions:** Implemented Ubuntu-based virtual desktops as a cost-effective and efficient replacement for Windows-based systems.
- **Incident & Problem Management:** Performed root cause analysis (RCA) for major incidents and ensured business continuity within agreed SLAs.
- **Documentation:** Maintained detailed system documentation and utilized a homegrown ticketing system for change management.
